#### TRADING STATEMENT

ZCI is currently finalising its results for the year ended 31 March 2007, which will be released shortly. In this regard, shareholders are advised that headline earnings per share will be between 115% and 125% higher than that reported in the fifteen-month reporting period ended 31 March 2006.

This increase is largely due to the effect of sustained strong international copper prices resulting in high profit figures at KCM.

The financial information on which this trading statement is based has not been reviewed or reported on by the Company's auditors.
